

### **03.10.2006 New chairman of the board in DanCopter A/S**

At the board meeting in August Torben Bjerre-Madsen was elected new chairman of the board in DanCopter A/S.

Torben Bjerre-Madsen has many years of experience as managing director as well as professional board member. He is member of a long list of boards in Denmark as well as abroad.

Torben has vigorously commenced his position as chairman of the board in DanCopter. The offshore business is new to him hence there will be a lot reading and a lot of visits to people/contacts who have a connection to DanCopter in order to get an overall picture of the business and how it works.

Torben's massive experience from previous jobs, e.g. as director of NEG Micon and Vestas and director and board member of Superfos gives DanCopter's board a lift in a positive direction.

**DanCopter looks forward to a good co-operation with Torben Bjerre-Madsen.**
