

Heli-flying 2008

On Saturday 30th of August DanCopter was represented on this year's Heli-flying at the Castle of Egeskov with OY-HJP by KRO, BOW and ISA.

It was a very nice day with good weather, lots of heli-talk, and a lot of visitors. DanCopter's EC155 was without comparison the queen of the day.

We had a good talk with many of the visitors about the daily use of our helicopter.
